protein

The Powerful Pea

(*Pisum sativum*)

One of the oldest domesticated crops, yellow field peas have been cultivated for over 7,000 years. The **rich protein content** as well as their nitrogen-fixing agricultural properties make peas a **sustainable & functional** alternative protein.

Why Our Protein Isolate:

- **Most Competitive Pricing Globally**
- **Protein: >80%**
- **Large volume already available in the United States**
- Sustainable Protein
- 100% Non-GMO
- 100 Mesh
- Allergen-free
- No Cholesterol
- Moisture: <10%
- Ash: <8%
- pH: 6.5-8.5
- Gluten: <20mg/kg

A Highly Versatile, Sustainable Alternative Protein

- High quality protein source
- Great source of iron, and can aid muscle growth, weight loss and heart health.
- Excellent protein for plant-based meat, dressings, mayos, drinks and other alternative protein applications
